

Prosat® 18712 Presaturated Wipes

Description

The PROSAT 18712 consists of polypropylene wipers saturated with a solution of 70% isopropanol alcohol and 30% deionized water in a resealable pouch. The pouch opens easily and the wipers are readily dispensed.

The PROSAT 18712 utilizes a meltblown polypropylene wiper which is exceptionally clean, being free from additives of any kind.

Features and Benefits

- Compatible with ISO Class 5 cleanrooms
- Very low concentration of sodium (less than 3 ppm)
- Increase solvent control and accountability
- Reduce VOC emissions
- Available sterile per AAMI Guidelines

Applicability

The information presented here is applicable to the part numbers shown below as well as to any product containing the same materials and produced under the same conditions, regardless of product size or packaging configuration. Please contact a Contec sales representative for more details.
