

INSTRUCTIONS FOR HCL® Rigid Sealing Tray for Condensed Blisters (#21118)

Step 1. Place the blisters in the tray.

Step 2. Fill each blister cavity with a tablet or capsule.

Step 3. Peel the prepared labels from the 8½" x 11" sheet. Hold them by the edges and apply the label strip to the blisters in the sealing tray.

Step 4. Press the labels onto the blisters.

Step 5. Apply moderate pressure with a sealing roller to ensure a secure seal on the blisters.

Step 6. Remove the blisters from the sealing tray.
