EXKON CHEMICAL COMPANY POLYMERS GROUP, P.G. SOX 3272, HOUSTON, TEXAS 77253-3272

POLYMERS GROUP -- a Quality business

ESCORENE

SECTION 1

GRADE: DL1015

DATE PREPARED: AUG 20.

MSDS NO. :

1992 89177044

PRODUCT IDENTIFICATION & EMERGENCY INFORMATION

PRODUCT NAME: DL1015

CHEMICAL NAME:

Polyathylene or Ethylene-Glafin Copolymer

CHEMICAL FAMILY:

Ethylene-Based Polymer

PRODUCT DESCRIPTION:

Odorless opaque white pellets or granules.

EMERGENCY TELEPHONE NUMBERS:

EXXON CHEMICAL AMERICAS

713-870-6000 800-424-9300

CHEMTREC

SECTION 2 HAZARDOUS INGREDIENT INFORMATION

This product is not hazardous as defined in 29 CFR1910.1200

HEALTH INFORMATION & PROTECTION SECTION 3

NATURE OF HAZARD

Particulates may scratch eye surfaces/cause mechanical irritation. SKIN CONTACT:

Negligible hazard at ambient temperatures (-18 to +38 degrees C: O to 100

Exposure to hot material may cause thermal burns.

INHALATION: Negligible hazard at ambient temperature (-18 to 38 Deg C: O to 100 Deg F) Vapors and/or serosols which may be formed at elevated temperatures may be irritating to eyes and respiratory tract.

Low order of toxicity.
INGESTION:

EYE CONTACT:

EYE CONTACT:

Minimal toxicity.

FIRST AID

This product is an inert solid. If in eye, remove as one

would any foreign object. SKIN CONTACT:

For not product, immediately immerse in or flush the affected area with large amounts of cold water to dissipate heat. Cover with clean cotton sheating or gauze and get prompt medical attention. No attempt should be made to remove material from skin or to remove contaminated clothing, as the damaged flesh can be easily torn.

INHALATION: First aid is normally not required .

INGESTION:

First aid is normally not required.

WORKPLACE EXPOSURE LIMITS

OSHA REGULATION 29CFR1810.1000 REQUIRES THE FOLLOWING PERMISSIBLE

EXPOSURE LIMITS:

5 mg/m3 (respirable dust), and 15 mg/m3 (total dust) based on the OSHA PEL for nuisance dust.

THE ACGIH RECOMMENDS THE FOLLOWING THRESHOLD LIMIT VALUES: a TWA of 10 mg/m3 (total dust) for nuisance dust.

PRECAUTIONS

PERSONAL PROTECTION:

For open systems at ambient temperature (-18 to 38 degrees C) where contact is likely, wear safety glasses with side shields. Where contact may occur with hot material, wear thermal resistant gloves. arm protection, and a face shield.

VENTILATION:

Local exhaust ventilation of process equipment may be needed to control particulate exposures to below the recommended exposure limit. See parsonal protection recommendations.

SECTION 4 FIRE & EXPLOSION HAZARD

FLASHPOINT: 649 Deg F. METHOD: ASTM £136 NOTE: Estimated Minimum LIMITS: FLAMMARIE NOTE: Not applicable AUTOIGNITION TEMPERATURE: 649 Dag F. NOTE: Estimated Minimum

GENERAL HAZARD:

Solid material, may burn at or above the flaenpoint, and airborne dust may explode if ignited. Toxic gases will form upon combustion. Static Discharge, material can accumulate static charges which can cause an incendiary electrical discharge .

FIRE FIGHTING:

Use water spray to cool fire exposed surfaces, protect personnel, and extinguish the fire.
Respiratory and eye protection required for fire fighting personnel.

HAZARDOUS COMBUSTION PRODUCTS:

Oxygen-lean conditions may produce carbon monoxide and irritating smoke.

SECTION 5 SPILL CONTROL PROCEDURE

LAND SPILL:

Recover spilled material and place in suitable containers for recycle or disposal. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

WATER SPILL:

Recover spilled material and place in suitable containers for recycle or disposal. Consult an expert on disposal of possessions disposal. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

Plastic pellets are defined by the U.S. EPA as a "significant material" thereby requiring any industrial plant that may expose pellets to grown water to secure a strong water permit. Violations of the rule (e.g. failing to apply for a permit) carry the same penalties as other Clear Water Act violations, Pellets found in storm water runoff are subject to EPA regulation with the potential for substantial fines and penalties.

18\$1....

11 11 70

NOTES:

National Fire Protection Association standards NFPA 654 and 68 indicate passible explonion herard of dust passible. Curifurm association of dust or dust clouds; operate handling and storage systems leak free, practice good housekeeping. Keep from sources of ignition. Do not store near heat, flame, or strong destruction in the second Assure proper electrical grounding of all handling equipment.

For more information see "Guide for Handling and Storage of ESCORENE Polyethylene Resins."

Product may also contain varying levels of additives, such as elip and antiblocking agents (tale or silica), antiexidants, stabilizers, and - correcton inhibitors.

PRESAUTIONS:

Should significant vapors/fumes be generated during thermal processing of this product, it is recommended that work stations be monitored for the presence of thermal degradation by-products which may evolve at elevated temperatures. It is recommended that the current ACGIH-TLVs for these materials be observed. Contact your Exxon representative for further -information.

HAZARD RATING SYSTEMS:
